WALNUT VALLEY WATER DISTRICT
DIVISION 2 • DIAMOND BAR

Protecting Every Drop.
Respecting Every Dollar

Every dollar tracked

WHY THIS RACE MATTERS

After the recent rate increases, Division 2 deserves more than assurances.

Ratepayers deserve to know how safe, reliable water will be delivered-and where every dollar goes.

Fair Rates, Fully Explained

Rates should reflect the **demonstrated cost** of reliable service, with every increase clearly and publicly justified.

Transparent Reporting & Oversight

When rates rise, ratepayers deserve to know **exactly where the money goes**: project by project, dollar by dollar.

Reliable Infrastructure

Hundreds of miles of pipes, reservoirs and pumps depend on **careful oversight** of every capital dollar, not deferred maintenance.

Water Security & Emergency Resilience

We depend heavily on imported water. The District needs a real plan for **drought and demand, 10 to 20 years out**, not just this cycle.
